WHAT VOS IS

A tracked system, not a one-off form

Most scorecards ask what you think about your business once, then send a PDF. VOS is the system used throughout an engagement: it scores the business, turns the weakest points into a 90-day plan, and tracks what was committed against what actually happened.

This preview shows the shape of it, so you know what you're looking at before you take the free assessment.

THREE PILLARS, NINE AREAS

VOS scores three pillars separately, because a business can be strong in one and weak in another at the same time, and that gap is usually where the risk is hiding.

The Bridge

DIRECTION & PEOPLE

Where the business is steered from: alignment, strategy, the plan the whole team is actually rowing towards, and the people who carry it. A shaky Bridge means people work hard but pull in different directions.

The Hull

SYSTEMS & CASH

What keeps the business watertight and moving: cash and the forecast, the numbers you steer by, and the processes that deliver what you sold. A brilliant Bridge can still take on water here.

The Cargo Hold

REVENUE & CUSTOMERS

What you carry to market: the demand you create, how it turns into paid work, what you sell, and the customers who come back. A strong Hull with an empty hold goes nowhere.

> **On the next page:** rate each of the nine areas from 1 (weak) to 5 (strong) on gut feel. It isn't your VOS score, but it shows where to look first.

WHERE THE BUSINESS SITS

Alongside the score, VOS describes the system around you. It's a description, not a judgement.

Trapped
Cash is tight and you are the business. Everything waits on you.

Fragile
Profit exists but feels fragile, and the hours are punishing.

Stabilising
Processes are forming. You can step away occasionally.

Scaling
Strong systems and margin. You lead; others run the day-to-day.

Liberated
The business runs without you. You choose the work you do.

BACKED BY A GUARANTEE

If, by the end of month one, VOS hasn't produced a specific, named item you can point to and say "that's now off my desk", you don't pay for months two and three.
